

At biocrates, our mission is to make metabolomics accessible to facilitate breakthroughs in biomedical research. With our pioneering phenotyping products and services, we are changing the way health is measured. We help scientists and researchers gather new insights about disease prevention, laying the foundations for modern personalized medicine.

If that excites you as much as it excites us, consider joining our team.

To strengthen our team in Innsbruck, we are looking for a part-time 10h/week starting in June 2022.

Student for Scientific Marketing (w/m/d)

What you'll be doing

- Literature mining and compilation of scientific knowledge for various disease indications
