## ASMS 2023

June 04 - 08, 2023

We are looking forward to ASMS 2023 in Houston | Texas.

Join us at our booth 519 or talk to our team at one of our poster presentations.

## Metabolite of the month

Aminobutyric acids

In this section, our scientists look at one specific metabolite each month. Topics of discussion include the biosynthesis and degradation in a broader health context, and the effect of dysregulation. In this month's article, they took a closer look at aminobutyric acids.

Cell culture metabolomics - The shortcut to drug development

Cell culture metabolomics is a valuable tool to decrease drug development costs while increasing speed and success rate. Read Esra's article about its applicability supported by numerous studies.
